

## News Release

### **QuestAir named one of Canada's fastest growing technology companies in 2006 Deloitte Technology Fast 50 Program**

#### **For Immediate Release**

**21 September, 2006**

VANCOUVER, B.C. – QuestAir Technologies Inc. (AIM: QAR; TSX: QAR) has been named to Deloitte's prestigious Technology Fast 50, the annual program which recognizes excellence, innovation and the fastest growing tech companies in Canada. Rankings are based on percentage growth in fiscal year revenues over five years, from 2001 to 2005.

Jonathan Wilkinson, QuestAir President and CEO, said "This award recognizes the significant progress QuestAir has made in developing and marketing our gas purification products for a range of high growth markets in the industrial hydrogen, biogas and fuel cell sectors. Our current development activities in the oil refining and petrochemical industries position us very well to build on the successes we have achieved to date."

QuestAir's increase in revenues of 2,082 percent from 2001 to 2005 resulted in a top 20 ranking overall in the Deloitte Technology Fast 50. The average increase in revenues among companies who made the Fast 50 for this region was 4,954 percent.

Winners of the 10 regional Technology Fast 50 programs in the United States and Canada are automatically entered in the Deloitte Technology Fast 500 program, which ranks North America's top 500 fastest growing technology companies. For more information on the Fast 50 or Fast 500 programs visit [www.fast50.ca](http://www.fast50.ca) or [www.fast500.com](http://www.fast500.com).

#### **About QuestAir Technologies Inc.**

QuestAir Technologies, Inc. is a developer and supplier of proprietary gas purification systems for several large international markets, including existing markets such as oil refining, biogas production and natural gas processing, and emerging markets such as fuel cell power plants and fuel cell vehicle refueling stations. QuestAir is based in Burnaby, British Columbia and its shares trade on the AIM Market of the London Stock Exchange Plc. and on the Toronto Stock Exchange under the symbol "QAR".

#### **About Deloitte**

Deloitte, one of Canada's leading professional service firms, provides audit, tax, consulting, and financial advisory services through more than 6,200 people in 50 offices. Deloitte operates in Quebec as Samson Belair/Deloitte & Touche s.e.n.c.r.l. The firm is dedicated to helping its clients and its people excel. Deloitte is the Canadian member firm of Deloitte Touche Tohmatsu.

Deloitte refers to one or more of Deloitte Touche Tohmatsu, a Swiss Verein, its member firms, and their representative subsidiaries and affiliates. As a Swiss Verein (association), neither Deloitte Touche Tohmatsu nor any of its member firms has any liability for each other's acts of omissions. Each of the member firms is a separate and independent legal entity operating under the names "Deloitte," "Deloitte & Touche," "Deloitte Touche Tohmatsu," or other related names. Services are provided by the member firms or their subsidiaries or affiliates and not by the Deloitte Touche Tohmatsu Verein.

### **Forward Looking Statements**

Certain statements in this press release may constitute "forward-looking" statements which involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. When used in this press release, such statements use such words as "anticipate", "believe", "plan", "estimate", "expect", "intend", "may", "will" and other similar terminology. These statements reflect current expectations regarding future events and operating performance and speak only as of the date of this press release. Forward-looking statements involve significant risks and uncertainties, should not be read as guarantees of future performance or results, and will not necessarily be accurate indications of whether or not such results will be achieved. A number of factors could cause actual results to differ materially from the results discussed in the forward-looking statements.
