

## News Release

### **QuestAir announces shipment of refinery hydrogen purifier**

#### **For Immediate Release**

**1 June, 2007**

BURNABY, B.C. – QuestAir Technologies Inc. (“QuestAir” or “the Company”; AIM: QAR; TSX: QAR) announced today that the first H-6200 hydrogen purifier has been shipped to an ExxonMobil refinery located in France.

Jonathan Wilkinson, President and CEO of QuestAir, said that the system will be installed and then tested during the remainder of 2007. Following this test period the unit will remain at the refinery and be utilized in ongoing commercial operations.

“The shipment of the first H-6200 system is a significant milestone towards the commercialization of the novel hydrogen purifier that QuestAir and ExxonMobil Research and Engineering Company (“EMRE”) have been developing since 2003. The system will be tested under a range of operating conditions that we expect to encounter at future customer sites. We expect that the hydrogen purifier will be available on a commercial basis once the test is underway.”

QuestAir has been working with EMRE since 2003 to develop this advanced, rapid cycle pressure swing adsorption (“RCPSA”) system, marketed as the H-6200, for use in oil refineries and petrochemical plants. This product will offer significant advantages relative to other hydrogen recovery options including significantly lower total erected costs; superior recovery performance and improved operability, allowing refinery operators to increase refinery productivity and profitability.

#### **About QuestAir Technologies Inc.**

QuestAir Technologies, Inc. is a developer and supplier of proprietary gas purification systems for several large international markets, including existing markets such as oil refining, biogas production and natural gas processing, and emerging markets such as fuel cell power plants and fuel cell vehicle refueling stations. QuestAir is based in Burnaby, British Columbia and its shares trade on the AIM Market of the London Stock Exchange Plc. and on the Toronto Stock Exchange under the symbol “QAR”.
